

Sparrow Economic Impact Report

Sparrow Health System is Lansing's largest private employer and, besides protecting the community's health, is the economic engine that helps drive Mid-Michigan. We support local families with paychecks every two weeks that provide the financial backbone of our communities.

In 2022, Sparrow paid \$851.7 million in wages, salary and benefits to our caregivers.

Total annual wages, salary, and benefits paid to local employees.

As good corporate and neighborhood citizens, hospitals invest in their communities from both inside and outside of their facilities. In addition to helping restore and support good health, healthcare-related practices and organizations provided nearly 568,000 direct jobs in Michigan in 2021; roughly 219,000 of those jobs were in hospitals.

In Sparrow's key seven-county region, healthcare provided 29,551 direct jobs and another 15,100 indirect positions. As the premier health system in the region, Sparrow provided the majority of those jobs.

County	Direct Jobs	Indirect Jobs	Total	Total Wages & Salary	Tax Revenue
Ingham	18,154	11,441	29,595	2,339,569,393	474,438,494
Clinton	1,655	458	2,114	131,920,097	27,271,816
Eaton	2,304	645	2,949	187,061,422	35,484,745
Gratiot	1,903	573	2,476	162,705,035	36,727,216
Ionia	1,056	300	1,355	79,507,324	17,010,979
Montcalm	1,871	738	2,609	168,135,258	41,643,383
Shiawassee	2,608	945	3,553	229,048,728	58,052,214
TOTAL	19,551	15,100	44,651	3,297,947,256	690,628,847

Community benefits

In addition, the community benefits from Sparrow know-how and services in numerous ways. Those include our Mobile Health Clinic that goes directly to under-served neighborhoods to provide basic services; access to COVID testing; and numerous community partnerships.

Sparrow donated \$90,607 to the community in 2020 for health programming, nutrition education, and health screenings.

Sparrow is a grant recipient of over \$230,000 from the Michigan Health Endowment Fund. We created a program called Feeding Your Growing Family – addressing food insecurity among at-risk pregnant mothers.

The Sparrow Mobile Health Clinic in 2022 provided:

56

outings in six counties

(Clinton, Eaton, Gratiot, Ingham, Ionia, and Montcalm)

223

health screenings

254

patients receiving community resources/health education materials

116

flu vaccines

55

COVID vaccines
