PEDIATRIC  
AFTER HOURS

Minor Emergency Unit

February 2004

WORKING WONDERS<sup>SM</sup> 

*The Pediatric After Hours Minor Emergency Unit is a division of Sparrow Emergency Services and staffed by physicians from Pediatric Physicians of Lansing, P.C., and Emergency Medical Associates, P.C. The Minor Emergency Unit provides quality care to children after regular office hours. Every day of the week, a board-certified pediatrician is available for children who cannot wait to be seen by their own doctor the next day.*

## Hours

Open Monday through Friday from 6 to 10:30 p.m. Saturdays, Sundays and holidays from 3 to 7:30 p.m. (closed on Thanksgiving and Christmas) Patients are seen on a first-come, first-served basis, unless the severity of illness requires immediate attention.

## Contagious Diseases

If your child has a highly contagious disease such as chicken pox or measles, or has an unusual rash, please let the admitting clerk know immediately so your child can be appropriately isolated.

## Fees and Insurance

Under federal law, your child is entitled to a medical screening exam. There are two separate bills for service, one from Sparrow and another from the Pediatric Physicians of Lansing, P.C. Your insurance company is billed first. If the service is not covered under your policy, we will bill you directly.

## What to do if your child is ill or injured

If it is a life-threatening situation that occurs after our service hours, go directly to the emergency room located at either Sparrow Hospital or Sparrow's St. Lawrence Campus.

We ask that you contact your doctor if you have questions regarding when to use our services.

## Services Provided

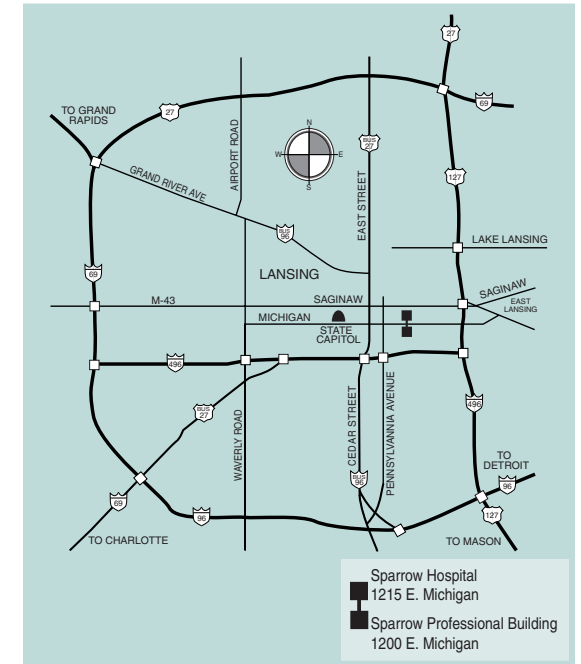

The Pediatric After Hours Minor Emergency Unit provides minor emergency care to children from infancy through adolescence. This does not include regular health maintenance care such as check-ups, immunizations, physicals, etc. These services should be provided by your child's primary care doctor.

If it is necessary to admit your child to the hospital, you and your child's doctor will decide on the hospital.

In order to provide continuity of care, we will send your doctor a record of the care provided to your child. We will consult with the doctor under appropriate circumstances.

## Location and Parking

Pediatric After Hours Minor Emergency Unit is located on the first floor of the Sparrow Professional Building located at 1200 East Michigan Avenue. Parking is available in the parking deck attached to the Sparrow Professional Building with entrances on both Michigan Avenue.

## Sparrow Regional Children's Center

The Sparrow Regional Children's Center is committed to offering the people of mid-Michigan the finest, cost-effective pediatric care. As the region's Children's Miracle Network hospital, Sparrow offers families the most advanced technology in pediatric and neonatal care. This includes pediatric intensive care, neonatal intensive care, pediatric surgery, rehabilitation and home care.
